

Broward Health

Employee Laboratory Services

Aetna Best Choice

Medically necessary lab work completed at one of the BH's Medical Centers is covered at 100% of allowable charges after a \$5 co-pay. Any covered labs performed elsewhere are considered as out-of-network under the plan and covered at only 60% of the allowable charges subject to deductibles, coinsurance and other plan provisions.

Quest Diagnostics Laboratory offers a reduced fee schedule to Aetna Best Choice Health Plan members resulting in out-of-network charges that may be less than other non-network labs. However, effective January 1, 2008, dermatologic specimens obtained by a Best Choice Plus participating dermatologist can now be sent to Quest Diagnostics Laboratory as an in-network benefit.

Aetna Select EPO and HDHP

Quest is the preferred Aetna lab provider; however our employees with Aetna EPO and HDHP may also use Broward Health Hospital labs as in-network benefit. Lab work at a Broward Health facility is covered at 90% of allowable charges, subject to deductibles, coinsurance and other plan provisions.
