

Remote Access

Using a Windows PC

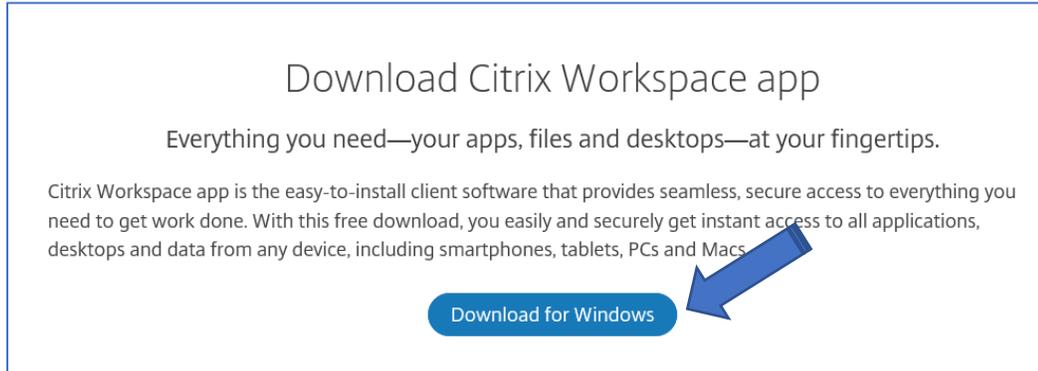

1. Ensure your device meets the minimum requirements.

Compatible with
Windows 10, 8.1, 7, 2008R2, Thin PC as well as Windows Server 2016, 2012, 2012R2 and 2019.

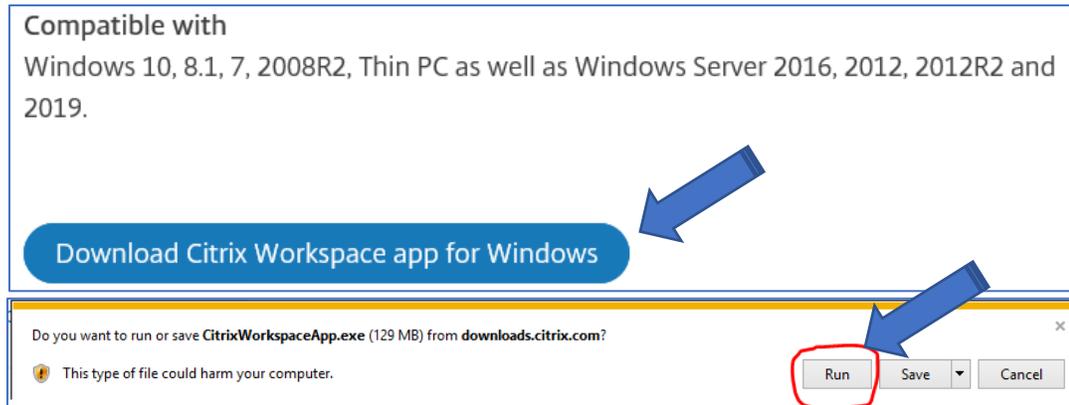

2. Browse to <https://access.browardhealth.org/vpn/index.html>
3. If you do not have the Citrix Receiver installed, select the link next to “**Citrix Receiver download for any OS version**”. (If this is a Broward Health issued laptop or you already have Citrix Receiver installed on your computer enter your User name and Password, click the **Log On** button and skip down to **Step 15**.)

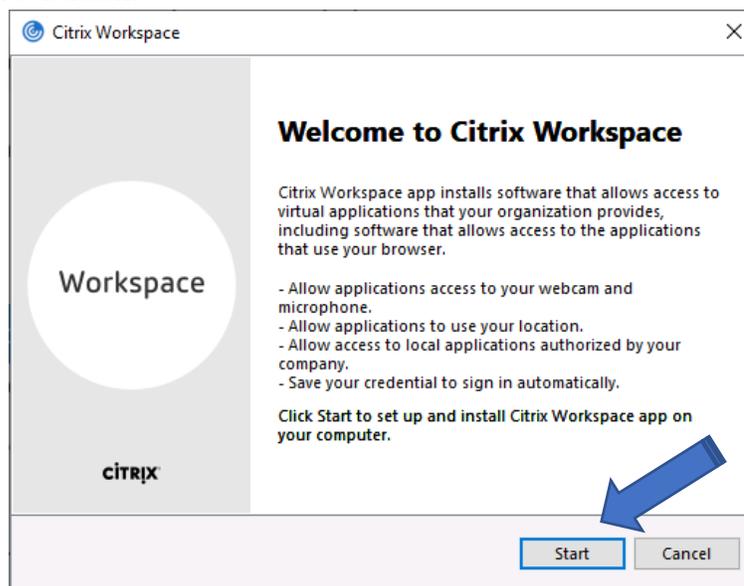

4. Select the “**Download for Windows**” link.

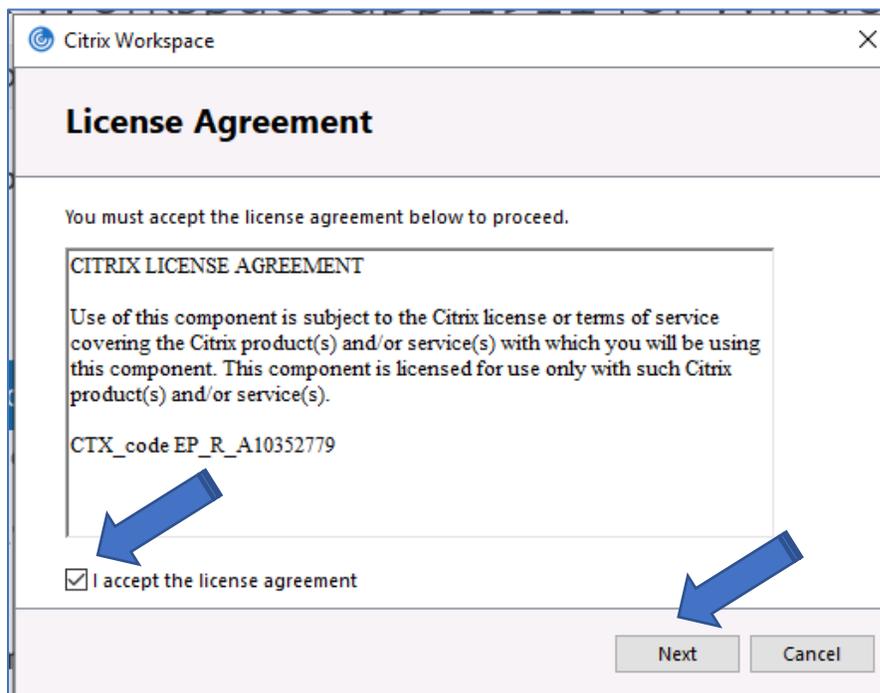

5. Select the “**Download Citrix Workspace app for Windows**” and then select the “**Run**” button to begin the install.

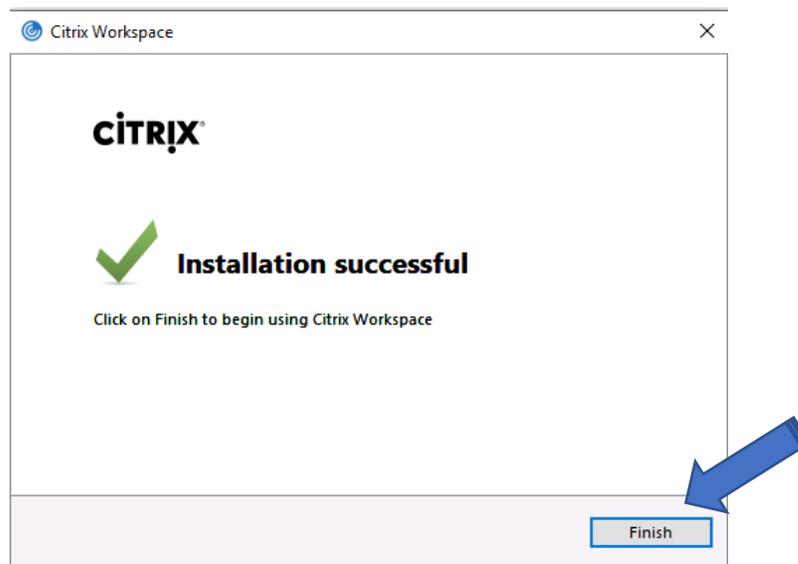

6. Select the “**Start**” button.

7. Select the Checkbox next to “I accept the license agreement”.
8. Select the “Next” button.

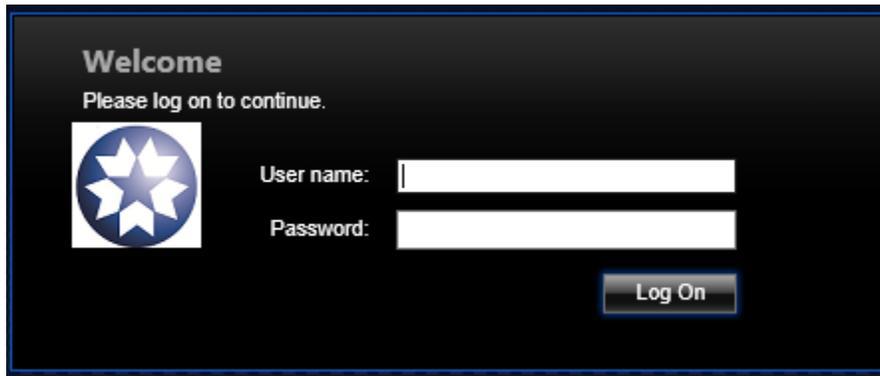

9. **Important:** Do not select the checkbox next to “Enable single sign-on”.
10. Select the “Install” button to begin the installation.
11. Select the “Finish” button.

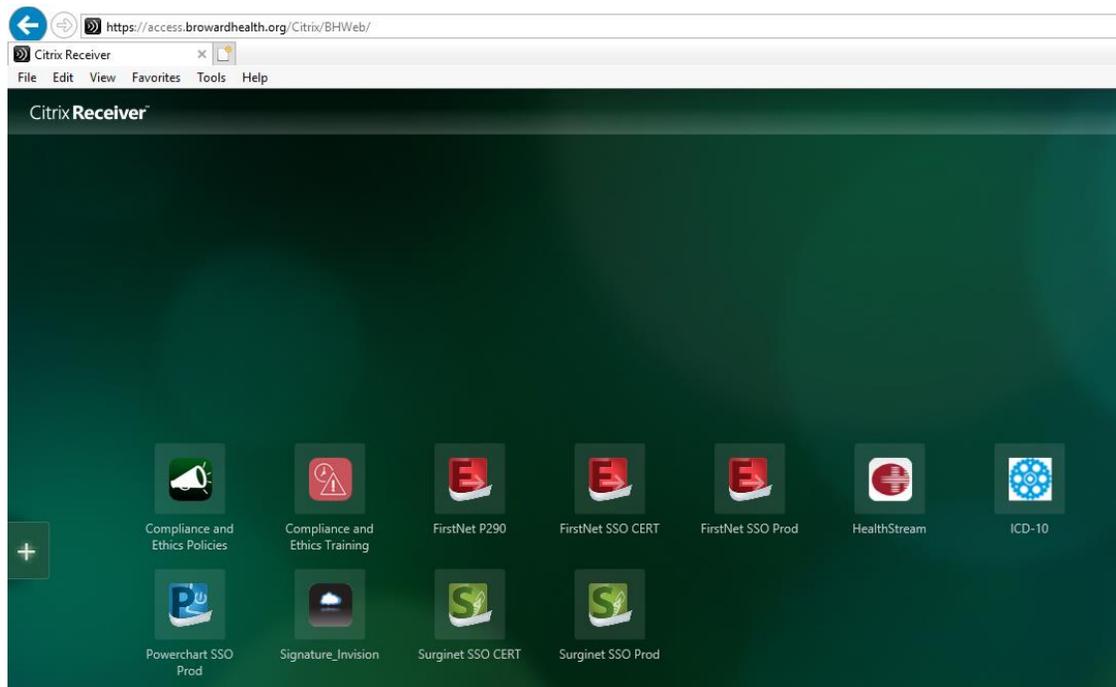

12. Browse to <https://access.browardhealth.org/vpn/index.html>
13. Enter your **User name** and **Password**.

14. Select the “Log On” button.

15. Select an application to launch. If you need an application that is not listed, go to **Step 16** to add an application.

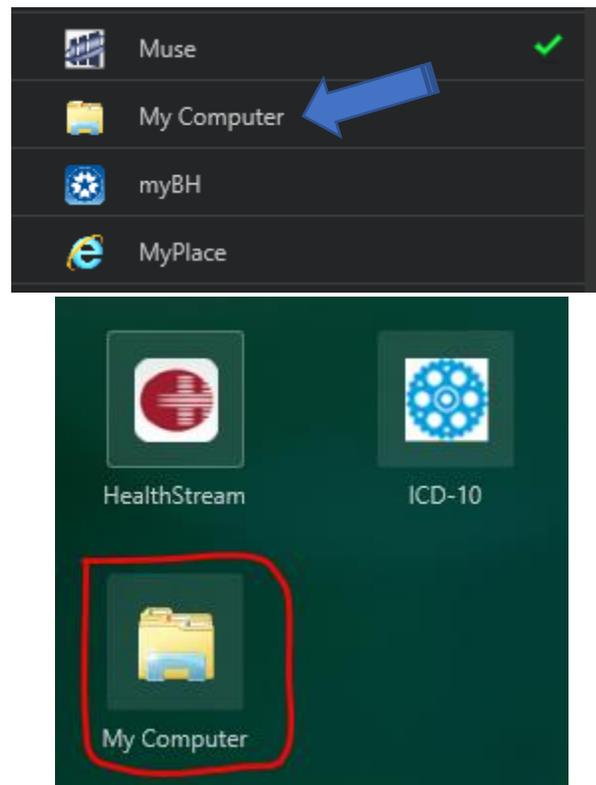

16. Select the plus (+) symbol and then “All Apps”.

17. Select the application you would like to add. (Example: Select “**My Computer**”. This will allow you to view your H: drive. Once selected, it will show in your list of applications until you choose to remove it.)

If you need assistance, please contact the Service Center at (954) 847-HELP (4357).
